Christmas Dinner:

- 100 → only 31 people
- Improved Guest List would be appreciated
- Improved Budget
- Improved Budget fixed during invitation

Winterparty:

- Übernommen von Neuzugang, Isabel. Wartet auf Bearbeitung.

## Finanzen

Jean-Michel said in a phone call (20. Nov, 15:30 - 15:40) that we are allowed to discriminate in pricing between different payment providers -> if a student wants to pay with twint or credit card, they have to pay ~1.3% more.

## Tanzadmin

Going to start planning winter sessions in the next 2 weeks :D, lets see how much we can offer.

Lucijana: Reintroduced Ballroom (Basic) Training + Rebranding of the now “Advanced Ballroom Training”

Georg: For Anmeldungen nothing particular, just the usual grind. IT gave us a feature to notify people when we move them to the waiting list which I’m eager to try :3

## IT

Migration of the groupmanager is almost complete. Now only board members receive [vorstand@tanzquotient.org](mailto:vorstand@tanzquotient.org) emails, while the team (board included) can be reached under [team@tanzquotient.org](mailto:team@tanzquotient.org). If anyone finds issues with their permissions, please let me know.

Dani implemented attendance checks. Lorenzo implemented room cancellations for events and email notifications to users moved to the waiting list for a course.

There have been minor issues with website response time and deployment pipelines. They seem to be almost entirely resolved.

## Awareness

Implemented and finished TQ community survey.

The Awareness concept (both [german](#) and [english](#)) was finalised and I hope all board members have read it and agree with it. At the upcoming (L)ODs we can announce it as well as ask teachers to mention it during class

LOD also has APs now, since most DJs have agreed to it.

Pink AP Shirts have been distributed at the two Open Dancing locations, and mostly been in use, as I have informed the DJ pools.

To maintain confidentiality I have created an Awareness Core Channel on Discord with selected people to evaluate smaller cases.

If it’s a larger situation I will still involve the Board.

Had a meeting with the Awareness person from Fusion Dance (they refer to it as the Care team). They are also a newly established Awareness/Care group, but the person responsible for it has for sure a bit more experience than me. I will stay in contact to exchange ideas and approaches.

### 5' [Diskussion] Data Protection

Marc

Hallo Marc

Deine Teilnahme am Kurs Ballroom Training - Standard ist nun definitiv. Eine Abmeldung vom Kurs ist nun nicht mehr möglich! Falls du zu einzelnen Lektionen während des Kurses nicht kommen kannst, trage deine Abwesenheit bitte spätestens am Tag vor der Lektion ein, indem du dich hier einloggst: <https://tanzquotient.org/de/aushelfen/>

Wir haben eine ausgeglichene Anzahl Follower und Leader im Kurs. Deine erste Kontaktperson ist:

Max Muster  
mmuster@student.ethz.ch  
078 123 45 67

Diese Person kann dein:e erste:r Tanzpartner:in sein. In den meisten Kursen rotieren wir dann in den Tanzstunden die Partner:innen.

Nochmals alle Infos zum Kurs:

Ballroom Training - Standard  
2025-11-14, 18:20 - 19:50  
Hönggerberg, ASVZ Arena 3  
Herbstsemester 2025 (14. Sep 2025 - 20. Dec 2025)  
Costs: 6.00 CHF for students, otherwise 12.00 CHF

Is sharing this much information about the dancing partner really necessary? Especially the phone number. I'd propose to either completely remove the information about the dancing partner or at least remove surname, email and phone number.

MM: we already had this discussion about 2 years ago and decided we want to keep it... would be great if someone could dig out the old board protocol for the reasoning. could have been at a working weekend. Arguments in favour was that course locations were not easy to find or there might be questions on the course location. There was no recollection of malicious usages.

GT: people should be able to decide themselves. There should be a button to decide whether your information is going to be shared.

MM: too many emails to anmeldungen if we don't share mutual contacts. The phone number does not need to be shared.

AS: as middle ground, maybe create a course channel in the first place.

MB: there is also the TQ general chat.

LP: implementing as per GT is not an issue. But then should we match people at all?

MM: showing the matching proves that the matching happened entirely.

GM: maybe just share the name, additional information only if opting in.

→ Georg is creating a gitlab issue

## 5' [Information] [Anregung] GLT / UZH Situation Chantal & Lidiia

broken table, strong email from roland hasler, sandra wagner apparently wanting to cancel all reservations. phone calls chantal with rafik josef (hörsaaldispo), very nice, explaining the situation, room reservations still stand. email conversation with sandra wagner and claudia moritzi → in person meeting between claudia, roland (?), lidiia, chantal on december 10th. will update afterwards.

CH: we might lose all GLT rooms, if things are very bad also mensa.

LD: unlikely, but high up they are all connected.

LD: should there be a channel to have more direct communication w/ teachers? We could have reacted earlier.

CH: we could have, but also their reaction was quite strong.

MM: email would be the best way to contact the board and inform about this situation. But people need to read their emails.

LD: There should be a protocol to handle cases such as broken furniture etc.

MM: can we have an alias to both tanzen and aktuar?

GM: maybe send to the board email?

LD: issue is that it is checked less often.

CH: we can think about it, first see what happens with the meeting next week and their preferred way to handle this.

Someone tell the people in the room that we are overtime :)

Overtime: 3m00s

## 5' [Anregung] Tone of voice (text?)

Chantal

**WhatsApp:** recently there have been a few occasions where the TQ General Chat somewhat escalated after a comment made either by us (board+team) or somebody else. I would like to prevent this whenever possible. On one hand to minimize spam and unnecessary discussions in the group chat and on the other hand to minimize us having to deal with these situations immediately. Some people had to react very quickly (thank you!) to calm things down and implement things in a way we might not have done that way otherwise. So, in conclusion, *please think at least twice about your message before sending it out to ~ 500 people.*

**Discord:** please remember that all of us are doing our best and we are doing it because we want to contribute to TQ. If you need something from someone remember it's easy to ask kindly instead of demanding something be done. The same goes for asking questions, please be kind when you're curious and don't accuse others of doing something "bad/wrong" on purpose. Constructive criticism and working together will bring us much further than tension or blame. Thank you!

GT: yes.

CH: *being a mom for 5 minutes*

General agreement.

## 5' [Anregung] Motivation of the team (yet again)

Chantal

We struggled a lot to find helpers for Niks Hütte, even though the board was enthusiastic about hosting again this year. Most of the team couldn't make it (partially due to the Formation being in Vienna). Needed to post into the tq helpers chat on whatsapp with 5-10chf vouchers as a reward for helping out (only one person actually did). For the future: should team members also benefit from such vouchers or do we expect them to help out since they are team? How can we motivate the team to step up more?

CH: provides overview. Should we offer vouchers to team members as incentive?

GT: we could ask in the general channel. Can send out an email to people doing BT. Will do.

MM: maybe remove the helpers chat if those interested in helping don't know about it.

## Events

### 5' [Anregung] Swing / Lindy Hop Open Dancing

Aki / Vojta

There is interest in organising Swing / Lindy Hop Open Dancings. Vojta, Violeta, and Fotini are the main organizers. What would a Swing Open Dancing look like? In what capacity do we support this?

→ One time thing like once a month to gauge how popular it is?

→ Fix Event like OD and LOD?

Aki: I hear there's some people that like swing

GT: *waves frantically*

LD: tricky from the room perspective, because we are booking a lot and ETH has been clear we are not getting more rooms than we are using now.

AS: proposal was Thu/Wed evening

LD: HXE and AP are booked out. For HXE we pay, do we want to pay money for something free? Thu has an open slot. Monday evening at HXE is free after the courses, but it overlaps with OD.

GM: how is beginner's open dancing working out now? If we start with a pilot, we can gauge the interest

LD: we could mix it with BOD, but do not see it happening separately for now.

GT: not at the same time of OD. Maybe have a swing hour at the first hour of OD, but it needs proper announcing. Else steal AP from courses and start a bit earlier. But danger in overlapping, else it would steal people from the other OD.

CH: do we care about having fewer people at OD once a month.

LD: BOD ends before regular open dancing, so swing open dancing could be after B(L)OD

CH: BOD until 9:30 and Swing afterwards,

VK: Pilot should be not during an other open dancing, because you don't get a representative amount.

GT: cut into the normal open dancing, be it in the beginning or earlier and then go as a pilot, to advertise it properly.

LD: We will find some free spots in the rooms we already have after the pilot.

CH: Conclusion we can put you in contact with Kalila, and let Noemi advertise it.

## 20' [Anregung] Brainstorming session VPP Chantal

VPP = Vorstands-Pizza-Plausch, [VPP - 0300-VSETH Dokumentation](#)

I talked to Jasmina, president of VeBiS, and the VPP will take place on 31.3.2026 at CAB. She is taking care of the reservation. We will have to organize several games for the people to play and score points for their team. Let's brainstorm 😞

Ideas from Jasmina: ...

- Pantomime Spiel
- Biologie Quiz bzw Biologie "Geoguesser"
- Spiel bei dem jeder ein Wort bekommt & dazu einen Satz machen muss. Jemand beginnt und die Sätze der folgenden Personen müssen zusammenhängend eine Geschichte ergeben.
- Musik Quiz bzw Lyrics weitersingen/erraten
- Hobby-Horsing Parcours 🐾
- Sackhüpfen

Our ideas:

- pub / dance quiz
- powerpoint karaoke
- tabu taboo sharades
- montagsmaler
- dance their name
- dance competition
- gartic phone (in real life)
- smelling / tasting competition
- dart with a weird numbering scheme
- red light, green light but it's dancing on green light

GT: *goes on a toilet break, the entire world falls apart*

CH: we have to organise (stupid) games

MM: Dance competition, we use 2500CHF of the budget for programming software for it  
*brainstorming ensues*

GT: *Comes back to Chantal saying that cats are better than dogs and agrees.*

GT: *mouths "wtf" as Chantal is showing hobby horsing / hobby dogging / hobby sheeping videos*

## 10' [Anregung] Update Frühlingsball 2026

Aki

- Grösse und Budget Frühlingsball
- Ticketpreis Frühlingsball

AS: visited the location yesterday morning, preliminary date is june 6th, 2026.

## 10' [Entscheidung] Frühlingsball Ticket Pricing

Aki

There has been ongoing debate about the size as well as the pricing for spring ball. I would appreciate a go / no-go on the part of the board so I make some bigger decisions inside the team.

AS: mentions numbers, we budgeted loss. 2023 there were around 200 helpers which would get free entry → we need a lot more ticket sales to get enough income. heard that ~15chf for student tickets should be planned.

MM: 30chf should be okay if ball has a lot to offer, two rooms etc. asks about storage or build up on friday?

DK: Spirgarten said room is probably free on friday, we could probably rent another room on friday for 1000chf to store things and start Aufbau. use moving dividers in the room to build up things during tournament, also bands can build up during tournament.

CH: ticket prices 2023?

AS: without legi 50chf, with legi 25chf. eventfrog gives unspecified error when checking ticket sales. will ask Matthias to check downloads. talking to Kaisertanz and Polyball to get bigger audience. input from Cora that we are part of VSETH, how to deal with target audience.

MM: market it for students (Lidiia: mainly affordable)

AS: big band zürich quoted 4000chf → too expensive, talking to them to discuss price. hasn't asked polyband or macadamia.

AS: let's use the next ball as a "test run" to get attention of other dance schools, students, people to see how 2027 could be. reserve location for 2027 just in case, cancellation usually possible until ~100 days before (check fees, spirgarten is free).

CH: idea for 2027: cooperate with other dance schools / organisations in Zürich. we could still be the main people in charge but delegate / outsource parts (i.e., say another dance school organises crash course, decoration of "their" room, music/band/dj).

→ Ticket prices: max 30 chf for students

Abstimmung: <https://tanzquotient.org/en/events/100639/detail/> einstimmig angenommen

→ to do Aki: book location for 2027 just in case

→ to do Aki: ask polyband and macadamia

# IT

## 3' [Anregung] Translating the website

Lorenzo

Can someone from the Commteam become officially responsible for translating the website? It does not need IT knowledge, there is a very straightforward GUI available to do so. It would likely require a workload of max 1hr/month.

Noemi will take care of it.

## 0' [Anregung] Guest Accounts

Chantal / Lorenzo / Jean-Michel

Long story short: the process takes way too long for us to efficiently onboard new, motivated people. Is there anything we / VSETH can do to speed up the process?

Additionally, the Flowable process could be improved. A lot of requests appear stuck to "Decision of ETH"; the OIV is never notified on the progress of a request but has to chase after the single user to know if they received a letter (!) from ETH. Add on top of that that each ETH/VSETH tool requires a different username/password combination and chaos ensues, especially with guests (non-ETH) who are unfamiliar with this maze. We obviously understand that a lot of this is not directly under VSETH's control, but there is room for improvement on all fronts, including TQ's and its OIV's naturally.

	Gästeaccount Lorenzo Petrella 7 days
	Gästeaccount Lorenzo Petrella 29 days

	Gästeaccount Lorenzo Petrella 4 months
	Gästeaccount Lorenzo Petrella 6 months
	Gästeaccount Lorenzo Petrella 10 months
	Gästeaccount Lorenzo Petrella 1 year

Additionally: extension of guest accounts was not smooth, all accounts were locked for a few days, had to wait for reactivation. Raise this issue with VSETH/ETH directly, definitely not ideal to block already active people from doing their job. Extension should work smoothly s.t. there is no "reactivation period". → was solved after a few days

→ postponed due to Jean-Michel being unable to attend (will try to talk to him about this via email / separate in person meeting)

Chantal

Anmeldungen + Tanzadmin + Räume

New support for Tanzadmin?

→ postponed since Alex is not here

### 8' [Information] Low popularity in Polyball Crash Courses Georg & Tim

For some reason there were very few sign-ups for the Polyball crash courses this year. What happened? What could be the cause? How can we avoid this in the future?

CH: Organized and communicated way too late.

MM: agrees but it could also be the ticket sale situation.

JR: bunch of sign ups at the same time, maybe some tickets were released/sold/picked up at the same time and people decided to sign up.

MM: polyball sent out survey, asked in his polyball crash course where people bought tickets → 90% normal sale, 10% didn't have a ticket yet. box on website super late, also usually a lot of questions directed at kontakt@tq... unsure if it happened yesterday.

GT: maybe people didn't sign up because it didn't matter and when courses were combined they did know. but, main issue was probably late organisation.

LD: for future: plan courses way more ahead because permits can take quite a while which slowed down process as well.

Overtime: -3'

### 2' [Anregung] ASVZ QR Code (again)

Georg & Jan

Each Friday Anmeldungen has to send out an email with ASVZ QR Code. It takes around 5 minutes to do which is not a lot but it's such unnecessary work. There was a glorious time for

2 months when we could put the QR code on the sign-up page when you were confirmed for the course before the editor broke. Can we find a way to do that again please? 🙏👉🙄

*Daniel: Why not just put a link to the QR Code on the Website? That should work for everyone involved. On the IT side, it is unfortunately not trivial to fix.*

Matthias comment: how about you just edit the field of html code directly in the database? would be once a semester.

Lorenzo comment: There is no HTML database entry, and we can't put it in the source code else it becomes publicly available. There are non-elegant ways around this from an IT perspective, e.g. add an image field that is only visible to participants. But I agree that the link is just the easiest and quite a clean approach too

MM: ja georg we will fix it for you

GT: many thanks to Lorenzo, we love you, please do it

→ to do Lorenzo: make Georg happy

Overtime: 0' ( cause I'm the boss (¬\_¬) )

## 2' [Information] Ballroom Training

Lucijana

There was a discussion in the Teacher's Chat on who we should target with the newly (re)introduced Ballroom Training (i.e. restrict level to at least Ballroom 3, or keep it open for anyone who has done at least Ballroom 1). For the rest of the Training we will keep less restricted, since we first need to see how the trial until Christmas goes, because it might not make sense to restrict the level if then there is no Trainings at all due to it. But of course if Teachers are overwhelmed with the range and Students get either bored or also overwhelmed with the Level, then it probably makes sense to restrict it more.

LS: last week it happened and this week probably as well 😊

JR: send out survey?

LS: usual survey is sent out

JR: eh but usually there are no responses

LS: would we get more now?

MM: go to teachers and tell them that they read the feedback and push them to fill it out.

Overtime: 1'

## 10' [Diskussion] Neue Partnerschaft: täzh Fusion Dance

Robin

Regelmässige Parties ab und zu mit Workshop (Kollektenbased, nicht gewinnorientiert) zum Fusion tanzen, build-up einer Community in Zürich. Mögliche Unterstützung durch Partnerschaft (sprich: Mal eine Whatsappnachricht oder SoMe oder Newsletter oder evtl. Mal über die Teachers an Studies streuen).

Da sie keine Kurse und nur sehr wenige Events anbieten & nicht gewinnorientiert sind → Partnerfee?

Robin: was in contact with TZA. They have fusion dance events once a month on Sunday, social dance + input (workshop style). Would be interesting for us, couple dance but without basic steps. If you are an advanced dancer you just go there, float, get inputs. Some of the TQ community is already there. I propose we partner with them. They are not a dance school, we would have to promote them a couple of times via WhatsApp or something like that.

– Thumbs up among the audience.

Robin: we have a partnership fee. Since they are collection-based and get around 200-300 CHF on top of the event expenses, they do not offer classes. Do we want to lower the partnership fee? It is 150 CHF a year.

CH: should we start making exception for partners? If it is just an event, do we still charge a partnership fee? We could try splitting the fee and only apply part of it.

MM, MB: we should not start making exceptions.

CH: if they offer classes at TQ, nothing stops from promoting themselves during the classes.

RR: see next point. The teacher might be TQ internal teacher and promote on those occasions.

CH: if they give a course for TQ, we would promote it. We can find middle ground in case they cannot afford the partnering fee.

MM, MB: agree.

## 5' [Anregung] Workshops: Fusion

Robin

Jeanine aus der Fusion Community könnte sich vorstellen, Mal einen Fusion/... Workshop zu geben für den TQ, und bei Interesse wäre es auch vorstellbar einige Stunden zu geben. Kann ich sie mit Alex in Kontakt setzen?

Merged with above.

## 2' [Information] Vertragserneuerungen fürs 2026

Robin

Ich werde alle Verträge wie gehabt versuchen zu verlängern und Bescheid geben, falls ein:e Partner:in wegfällt.

RR: will talk to Alex. I will do the new contracts soon.

## Kommunikation & Marketing

### 5' [Anregung] Match Lab Cooperation

Chantal/Sally

We received another email by MatchLab reaching out to us about a potential cooperation next semester. Has anyone responded to their request we received after the UZH activity fair? What's the status? Do we still want to cooperate? Who can take care of answering them (regardless of yes or no to cooperation)?

AS: feels responsible

NL: heyhey now I'm here, it can be my problem now (unless you want it - no). read last couple protocols, is there a consensus now?

LD: find out more about what they want but that never happened.

MM: many options, it should feel good for you (?)

I haven't been a team member before but would be open to take on this responsibility since I have been spending progressively more time at TQ(related) things over the last years and would like to become more involved.

### 2' [Information] HIC Building

Matthias

Hallo Zusammen

Das HIC Bauprojekt, für das neue Gebäude für Fachvereine, Kommissionen, Teams und andere VSETH nahe Gruppen, hat jetzt offiziell neu gestartet.

Da ihr alle wahrscheinlich jetzt viele Fragen zum Neubau habt, werden wir (VSETH Infrastruktur & Präsident) am 8.12.2025 von 17:00 bis ihr keine Fragen mehr habt eine Infoveranstaltung auf dem Höggerberg haben. Der genaue Raum wird später via E-Mail noch mitgeteilt. Wir werden euch kurz präsentieren was die Pläne sind und danach habt ihr Zeit alle eure Fragen zu stellen.

Damit wir etwa einschätzen können wie viele Leute kommen und um uns schon auf gewisse Fragen vorbereiten zu können bitten wir euch das [Forms](#) auszufüllen.

Freundliche Grüsse  
Victor

Hallo liebe FR Leute

Ich schicke euch hier den momentanen Draft von unserem [Bedarfsnachweis](#) als auch eine [Tabelle](#) von allen VSETH/SOSETH Räumlichkeiten welche für das HIC geplant sind. Ich bitte euch diesen bis zum nächsten FR durchzulesen, damit wir ihn dann bestätigen können. Ihr werdet vor dem FR nochmals ein zweites Mail erhalten mit der definitiven Version, da der **Teil vom SOSETH** noch nicht fertig ist. Der Rest wird sich allerdings nicht mehr (gross) verändern.

Freundliche Grüsse  
Victor

### 2' [Information] TQ Community Survey

Lucijana

Implemented comments for the [Survey](#) that we are planning to do. If there are no further complaints or comments until Saturday evening, I will set up a proper Google Survey, and send it around soon, such that we can evaluate after Christmas and I can inform you about the main results at the next board meeting.

There was mention of having a voucher raffle as a motivation and reward.

My suggestion would be to give out the following vouchers:

1x 100 CHF

4x 25 CHF

10x 10 CHF

20x 5 CHF

Total Cost: 400 CHF

MB: much better than the version before, money is fine

some more feedback, but general go ahead

MB: how to give out vouchers if survey is anonymous?

LS: separate field for contact details if they want a voucher

MM: can you separate answers? one result table, right?

CH: put link to new google form in “final thank you” message at end of survey.

→ LS will check if it is possible to split answer from contact detail, check other survey options, otherwise put new link in final message

## 5' [Anregung] Recruiting people for Awareness Team Lucijana

Although having the DJ as the AP at events so far has somewhat worked, I am not happy with this solution and others have remarked on the sub-optimal solution as well.

As mentioned at the previous Board Meeting, I am planning to create an AP Pool like there is one for the DJ. This way we wouldn't have to bother (future) DJs with it and I could develop some guidelines that I ask them to read and have meetings from time to time to instruct them if necessary. I think for such an assignment it is important that it is done voluntarily and not by proxy because one is DJ the same night.

Similarly I would like to recruit more “Awareness Core”-members to deal with cases arising. Current Team members are still around but to paraphrase “towards the end of their TQ career”.

Please let me know if you are interested in becoming either AP Pool or Core member, or let me know if you think someone you know would want to or is particularly fit.

thank you <3

## 10' Abschluss
